

Synopsis of Linear Associative Algebra A Report on Its Natural Development and Results Reached Up to the Present Time

Filesize: 9.15 MB

Reviews

I actually started reading this article publication. We have read and that i am confident that i am going to planning to study yet again once again later on. You can expect to like how the author compose this pdf.

SYNOPSIS OF LINEAR ASSOCIATIVE ALGEBRA A REPORT ON ITS NATURAL DEVELOPMENT AND RESULTS REACHED UP TO THE PRESENT TIME

DOWNLOAD

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 36 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1907 Excerpt: . . . norm $q, \dots i, \dots r_n$ are primary prime tetterions of norm t , all being of the form 286. Definition. An integral tetterion is primitive if its coordinates have no common divisor other than unity. It is primitive to an integer m when its coordinates are all prime to m . Every primary tetterion is also primitive. 287. Theorem. Let y be a primitive integral tetterion and $N(y) = p_1^{a_1} p_2^{a_2} \dots p_t^{a_t}$ where $p, q, \dots t$ are the prime factors of $N(y)$. Then y can be decomposed in only one way into the form $y = n_1 n_2 \dots n_t \cdot e$ where e is a unit tetterion, and n_1, n_2, \dots, n_t are prime tetterions of norm p, q, \dots, t respectively. 288. Definition. If a_1, a_2, \dots, a_n are s integral tetterions of equal norms $N(a_1) = N(a_2) = \dots = N(a_n)$, and if $a_1 a_2 \dots a_n = W(a_j)$, then these tetterions are semi-conjugate. 289. Theorem. A product of any number of prime tetterions of forms $2^{d_i} e_i$ is a primitive tetterion of the same form if among the factors no s of them are semi-conjugate. 290. Theorem. A product of primary prime tetterions i_1, i_2, \dots, i_n , where $N(i_1) = p_1, \dots, N(i_n) = p_n$ being distinct primes, is always a primitive tetterion. 291. Definition....
