Zoo Animal Friends: 10 Tiny Cuties with Mix and Match Accessories

By Michele Wilcox

Annie's. Paperback. Book Condition: new. BRAND NEW, Zoo Animal Friends: 10 Tiny Cuties with Mix and Match Accessories, Michele Wilcox, Michele, a knit designer for over 25 years, loved designing this book of zoo animals, coming up with the animal ideas and giving them each their own personality. Everyone in her family has a different favorite. She likes the monkey the best and her husband likes the lion. The grandchildren, of course, want them all! The most fun was in the creating of the clothing and accessories as everything is mix and match. You could easily just make one or two of the animals and then all of the projects to go along with them. All animals begin with the same basic shape All projects are made using the same yarn - no need to buy a full skein of yarn that will only be used for a few stitches All of the accessories fit each of the animals so you can make just one or two critters and a complete wardrobe for them.
