Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from North Coastal Area Action Program: A Study of the McKinleyville-Trinidad Area In 1966 the California Legislature requested the Department of Water Resources to initiate an action program of investigation on the Smith, Mad, Van Duzen, and South Fork Eel Rivers. The first phase of this action program, reported on in Bulletin No. 105-1 in December 1966, selected the coastal strip from Humboldt Bay to Trinidad as having the most pressing need for new water supplies. As a result, the Department focused the action program on this coastal strip and carried out a 1-1/2 year reconnaissance investigation, of the McKinleyville-Trinidad area. This bulletin reports on that investigation. The objective of the study was to formulate plans for the development of water supplies within the McKinleyville-Trinidad area. It was concluded that the best way to provide additional water supplies to the study area would be through annexation to the Humboldt Bay Municipal Water District and construction of a pipeline from the District s system into the McKinleyville-Trinidad area. This study was coordinated with the local agencies involved in water development in the area. The Humboldt Bay Municipal Water District, in addition to working closely with the Department, also conducted a complementary study of potential projects on Little River.
